Monday, Nov. 30th COVID-19 Update

POSITIVES:

1,684 new cases 97,095 total cases statewide

DECEASED:

28 additional deaths 1,568 total deaths statewide

HOSPITALIZATIONS:

876 current COVID-19 hospitalizations, 146 on ventilators

New "Red to Green" county-by-county framework

- New Mexico will transition to a tiered county-by-county COVID-19 system on Dec. 2.
- This will enable counties to reopen further as soon as they meet key health metrics. There are three levels – Red, Yellow and Green.
- Red: High average test positivity and high average of new cases per-capita
- Yellow: Low average test positivity or low average of new cases per-capita
- Green: Low average test positivity and low average of new cases per-capita

Where We Stand Today

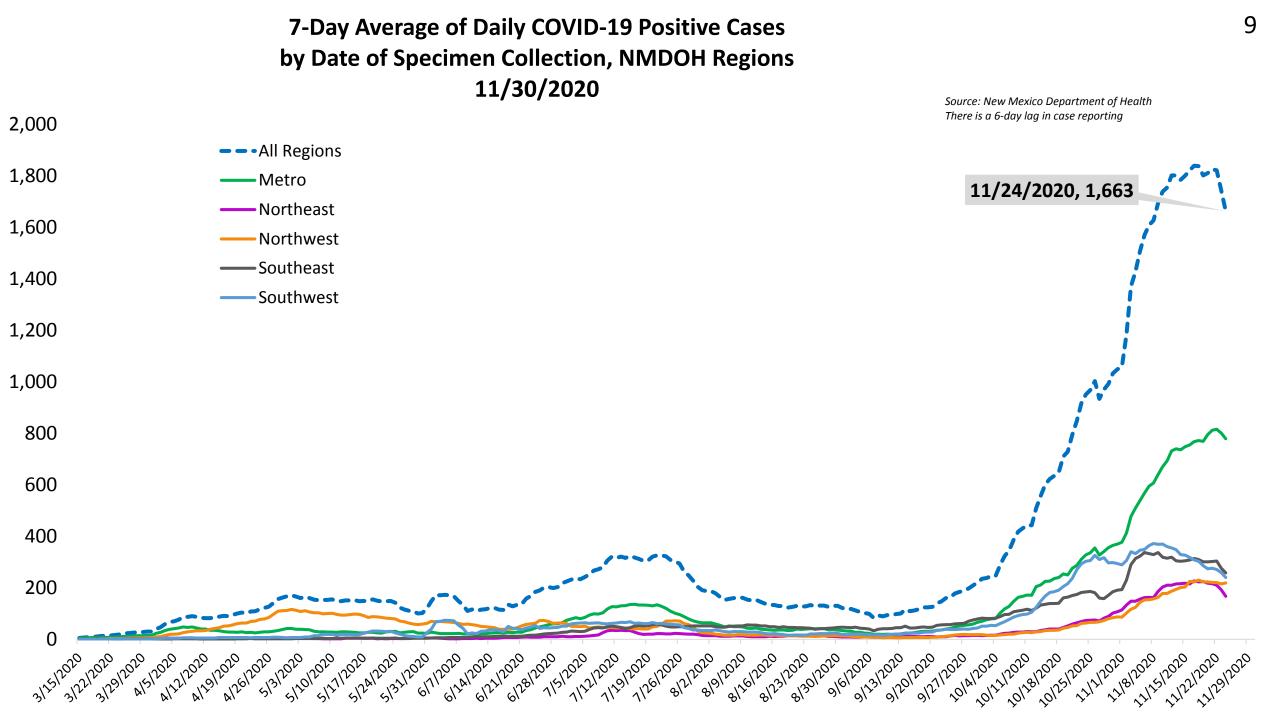

The map will next be updated Wednesday, Dec. 2.

New "Red to Green" county-by-county framework

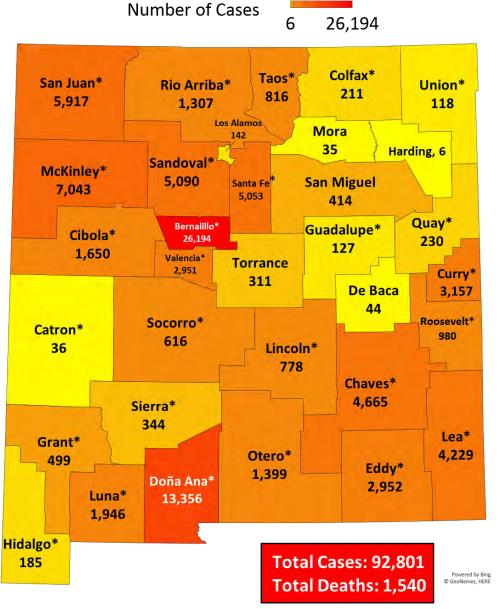

- The county-by-county status and information can be found at <u>cv.nmhealth.org/redtogreen</u> and will be updated every two weeks beginning December 2nd.
- When a county moves to a less restrictive level, it may begin operating at that level immediately upon the map's update.
- If a county moves back to a more restrictive level, it will begin operating at that level of restriction within 48 hours after the map's update.

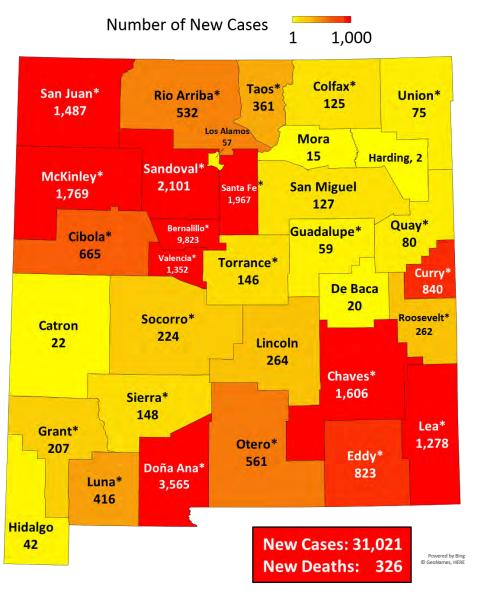

New "Red to Green" county-by-county framework

- The spread of COVID-19 remains a statewide emergency.
- What you can do to help save lives and help your community reopen has not changed.
 - If you don't need to go out, please don't
 - If you must go out, wear a facemask at all times
 - Avoid gatherings, especially with non-household members
 - Wash and sanitize your hands frequently

NEW MEXICO HOSPITALS STRUGGLE TO FIND BEDS, STAFF AMID RISING COVID HOSPITALIZATIONS KOB4

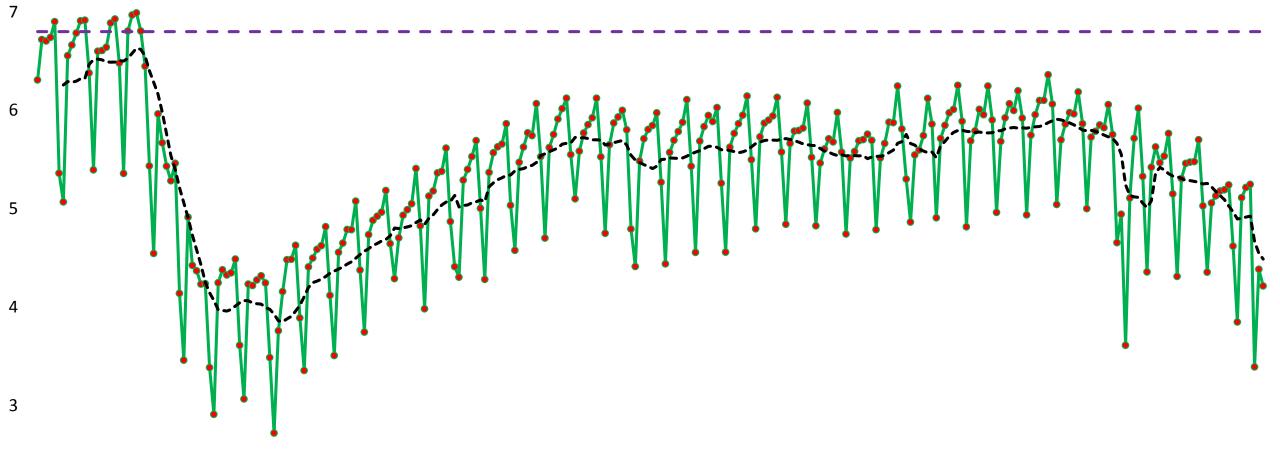

- "Presbyterian hospitals across the state have reached or exceeded their standard ICU bed capacity frequently in recent weeks, and this trend is expected to continue
- "[Lovelace] Currently, an average of 60% of our in-patient hospitalizations are non-COVID.
 Our System has a surge plan in place and are reviewing it for lessons learned and best practices."

COVID-19 Average Daily Case Rates by Test Positivity, New Mexico Counties, November 10 - November 23, 2020

Nothing about the virus has changed!

- The rise in cases is due to the significant increase in human to human contact.
- This is threatening our ability to provide healthcare for all New Mexicans as early as next week.
- We ALL have to recommit to fighting the virus for another year.

CASES ARE RISING TOO QUICKLY. WE ALL STILL MUST FIGHT THE VIRUS.

STAY AT HOME. RETHINK YOUR HOLIDAY PLANS.

Wash hands, clean surfaces, cough into tissue/elbow.

Everyone needs to wear face coverings in public. Maintain social distancing (minimum 6 feet).
