# Vaccine Equity: Race/Ethnicity and Geography

# Geographic Vaccine Disparity by Race/Ethnicity American Indian or Alaskan Natives

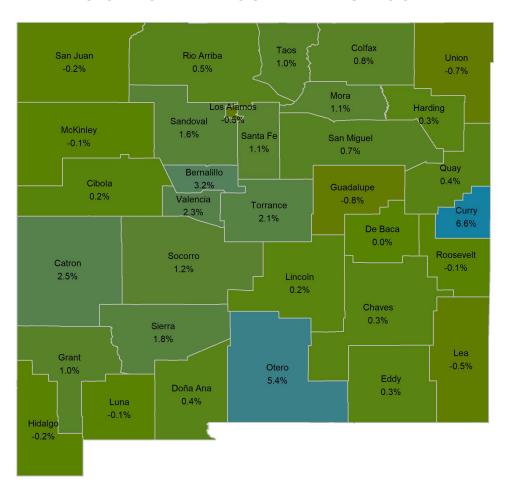

How to read this slide:

In San Juan County, the share of vaccination for AI/AN is 20.7% higher than the 'share' (proportion) of population.

In Catron County, the share of vaccination for AI/AN is 1.8% lower than the 'share' (proportion) of population.

# Vaccine Equity: Social Vulnerability Index (SVI)

Social Vulnerability Index (SVI):

### Social Vulnerability Index (SVI)

- Social Vulnerability Index: Uses
   U.S. Census Data to Determine
   Relative social Vulnerability of
   each Census tract
- Based on four related themes: socioeconomic status; household composition and disability; minority status & language; housing and transportation
- 1.0 = highest vulnerability
- 0 =Lowest vulnerability

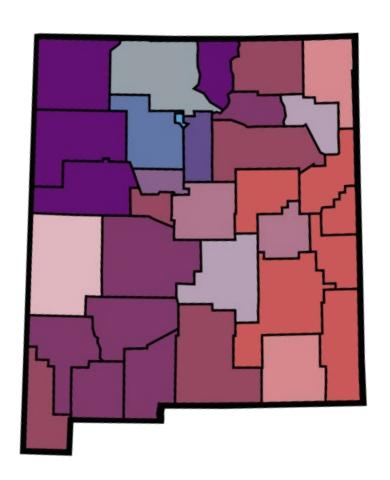

Along with the rankings, the SVI databases include all the census variables listed above. Graphic adapted from the North Carolina Preparedness and Emergency Response Research Center.
